

DANCE OF HUGS

The girls and boys dance to the music chosen for this moment, scattered throughout the space provided for this purpose in the classroom.

The teacher stops the music and at that moment they have to look for a partner to hug. We must make sure that no one is left alone, and for this purpose, adults can also participate in the hugs.

You can play at hugging in groups of two, three, four or as many as necessary.

MURAL "MY FAVORITES"

Somewhere in the classroom, a space can be set up for students to bring in pictures or drawings of their favourite things.

For example: favourite foods, favourite games, favourite places, favourite books, favourite movies, etc.

In this way, they will realize that each person has different tastes, and they will be able to reflect that all of them are wonderful because none is better than another.
