

SOCIAL TRANSFORMATION FROM 15 TO 18 YEARS

Young people with learning difficulty

Centroamérica-Caribe (Venezuela, Valencia)

People served

12

Children: 2 Men. Adolescent: 1 Male.
Adults: 5 Women and 4 Men.

**People who work
in the Project**

3

3 people volunteers (women)

**Presentation of the
social reality**

All the participants are from disadvantaged areas, of low resources with security problems, roads, scarcities of water and light. The families, mostly dysfunctional with incomplete family nucleus, in the neighbourhood there are no schools that can respond to their needs and educational difficulties, having as a result no schooling of these children and young adults.

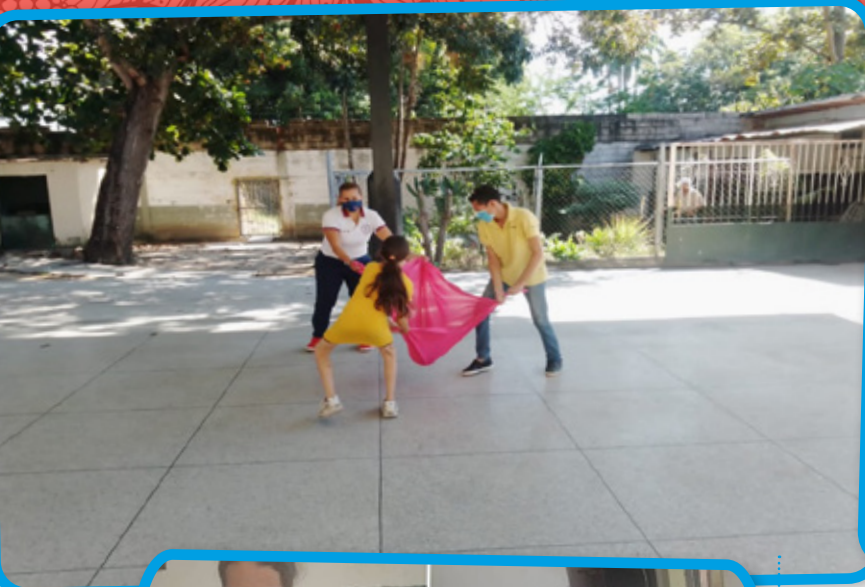

**Simple description
of the task to be
done:**

The activities that are provided to the beneficiaries, seek to respond to the needs of the participants, giving him tools that help him to develop at a personal and social level, with a trade that can develop and put in practice, said trades start from manual areas such as piñatas, decorations, bakery, kitchen. A part of the entrepreneurship training personal growth is provided, helping them to interact better with society, all this is going to be given in a gradual way depending on the skills and limiters of each participant.

SOMEWHERE IN THE **WORLD**

A project by
Itaka-Escolapios

Achievements of the last years

- The greatest achievement that has been had with the project is that they feel as a group of life developing a good friendship demonstrating interest and concern for the other members of the project. Also, as an important advance we have the incorporation of the volunteer one of the participants has shown to have the necessary tools to go from being participant to volunteer what shows that the experiences lived in the project have good results.

Future intentions

- In the future we look for the implementation of new workshops of entrepreneurship, to provide more tools that help them to stand by themselves in the personal and work areas.
- Knowing that this implies greater formation of the companions and training.
